

Semantic hierarchies in dialogue systems

MOU?EK, R. Semantic hierarchies in dialogue systems. In *WSEAS transactions on electronics, Vol. 1, issue 3 (2004)*. Izmir: WSEAS, 2004. s. 516-519.

Paper deals with semantic representation of user utterances within development of computerized dialogue system for city information center. Formalism for description of natural language are verified on user utterances. Problem of building semantic hierarchies is discussed.
