

Attention of drivers and dual task performance

MOU?EK, R., PODLENA, V. Attention of drivers and dual task performance. In *Xth International conference on cognitive neuroscience* . Istanbul : Istanbul University , 2008. s. 365-365.

Performed ERP experiment is a variation on attentional blink paradigm; audio neose is added in control experiment. Software application (XML, Java) was developed. There is significant decrease in N400 amplitude in control experiment.
